

# JERVIN A. VILLONES

Front End Developer

☎ 09095749067    ✉ jervinvillones6@gmail.com    🌐 mjdev-vill.vercel.app

## SUMMARY

Innovative Front-End Developer with knack for crafting responsive, user-friendly interfaces. Strong experience in HTML, CSS, and JavaScript, complemented by deep understanding of modern frameworks like React and Angular. Proven track record of collaborating with cross-functional teams to deliver seamless web applications. Adept at transforming complex requirements into intuitive digital experiences, driving user engagement and satisfaction. Experienced in building responsive and visually appealing user interfaces. Possesses knack for translating design concepts into interactive web experiences using HTML, CSS, and JavaScript. Capable of collaborating seamlessly with designers and back-end developers to deliver high-quality projects.

## EDUCATION

|  |  |
|--|--|
|  | <b>Bachelor of Science of Information System</b>   |
| 2024- 2025<br>University Of Rizal System | As a Bachelor of Science in Information Systems (BSIS) student, I can provide efficient and accurate data encoding by combining my technical knowledge and attention to detail. I am trained to work with databases and spreadsheets, ensuring that data is properly structured, validated, and secured. With a strong foundation in data management, system analysis, and business processes, I can not only perform data entry tasks but also help optimize encoding workflows. I understand the importance of data integrity, confidentiality, and timeliness, and I strive to maintain high standards in all tasks related to information processing and encoding. |

## EXPERIENCE

|                          |   |
|--------------------------|---|
| 2024 - 2025              | <b>Web Designer</b><br>I can design and develop information systems that help solve real-world business problems using tools like databases, web development technologies, and programming languages. |
| 2016 - 2020<br>JMR Cards | <b>Encoder</b><br>I can efficiently input large volumes of data with high accuracy, ensuring that records are clean, organized, and error-free.   |
